PERSONAL PROFILE:

I am a self-motivated, committed, and thoughtful person with vast experience in the IT sector. I am currently studying a degree to facilitate redeploying my skills and experience into a field I am passionate about, virtual reality for education and training. My degree module results so far have all been in the first-class honours range.

With the ability to work under instruction, I remain calm in all situations. Working effectively both within a team and individually, I use my initiative. I believe that I will be an invaluable asset to any organisation given my experience, dedication, and the great pride that I take in my work.

I am looking for an employer that will not only support my degree work and career change goals, but who will also challenge me to become an even greater asset to their team.

KEY SKILLS:

- Creative trouble-shooter
- Inventive programmer, data analyst and hardware engineer
- Excellent presentation, listening and consulting skills
- An eye for detail whilst adopting a methodical approach to work tasks
- Outstanding Customer Service
- Extremely motivated and focused
- Able to offer mentoring and leadership to others
